An essential control for your business

Control of weight is a necessity in most catering and bakery operations, from checking of bulk supplies to individual portion and recipe control. Accurate scales will save you money on ingredients and ensure a uniform product. An investment in good quality weighing equipment will help to maximize profits. Weylux offers a wide selection of robustly made scales designed for the professional caterer and baker. Choose from digital, dial reading or balance scales with weights. They are all designed to give you years of accurate weighing.

EASIWEIGH CATERING SCALES

These robust are scales designed for a variety of weighing applications in the bakery and catering industries.

You can weigh directly into your own container which will stand on the 260x220mm stainless steel platter.

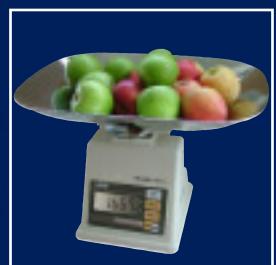

Alternatively at extra cost a 405 x 280mm dished stainless steel oblong pan be fitted - illustrated below.

Easiweigh streamlines recipe weighing. Simply re-zero the display after adding each ingredient to your mixing bowl.

Easiweigh gives exact portion control and is ideal for dietary weighing.

Easiweigh checks incoming supplies - select a high capacity option

The Easiweigh can weigh down to 0.1g. The extra fine accuracy model will give you such precision.
